Trade Opportunity Information

[1](#)7. The Government of the Republic of Mozambique has received funds from the African Development Bank (AfDB) and the OPEC Fund for International Development towards the costs of the Electricity III Project and intends to apply parts of the funds to cover eligible payments under Contract Packages 1 and 2. The objective of the project is to satisfy the growing demand for electricity and to improve access to electricity as well as the quality and reliability of supply in Gaza, Inhambane and Nampula Provinces.

All components will be combined in two bid packages, one covering the Gaza and Inhambane Provinces and the other covering Nampula Province. Procurement will be on a supply and installation basis through International Competitive Bidding (ICB). The document format will be QSupply and Installation of Plant and EquipmentQ of the World Bank adapted to reflect the Rules of Procurement of the African Development Bank.

Electricidade de Mocambique (Employer) invites sealed bids from eligible Bidders for the construction and completion of distribution networks as given below:

Package 1: For Gaza and Inhambane Provinces

- (i) Supply and assembly of about 228 km, 33 kV overhead lines;
- (ii) Supply and assembly of about 154 km, 0.4/0.23 kV overhead lines;
- (iii) Supply and assembly of about 67 of 33/0.4 kV overhead transformer stations;
- (iv) Connection of about 4500 consumers.

Package 2: Supply of Power to the Nampula Province, including the:

- (i) Supply and assembly of about 247 km, 33 kV overhead lines;
- (ii) Supply and assembly of about 63 km, 0.4/0.23 kV overhead lines;
- (iii) Supply and assembly of about 22 of 33/0.4 kV overhead transformer stations;
- (iv) Connection of about 3400 consumers.

18. Bidding will be conducted through the International Competitive Bidding procedures specified in the Guidelines: Rules of Procedure for Procurement of Goods and Works under African Development Bank. Bidding is open to eligible bidders. Bids shall be submitted on a turnkey basis covering all works, including line survey, pole spotting, detailed design and supply of switchgear, transformers, control system, distribution lines, structures, etc. as well as civil works, installation and commissioning.
